OUR VISION

To ensure that everyone can achieve her or his full potential with access to a quality education and lifelong learning. We envision a world in which all countries prepare all their children and youth to succeed as citizens, and equip them with the tools to participate in their country's development.

OUR OBJECTIVE

To help achieve our vision, we have set a target to reduce Learning Poverty by half by 2030. This means reducing by at least 50% the number of children who cannot read and understand a simple text by age 10. Our efforts support the achievement of the UN's Sustainable Development Goal 4 (SDG4)—to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

Meeting the COVID-19 Crisis

COVID-19 has amplified the learning crisis. The pandemic's impacts could drive levels of Learning Poverty up to 70% in low- and middle-income countries, and could cost an entire generation of school children \$17 trillion in lifetime earnings. The World Bank currently has 60 projects addressing COVID-19 response in 42 countries, totaling \$9.65 billion—covering the entire education cycle from early childhood to higher education.
