Enforcing Religious Freedom in Prison United States Commission on Civil Rights, 2008 From Executive summary This report focuses on the government's efforts to enforce federal civil rights laws prohibiting religious discrimination in the administration and management of federal and state prisons Prisoners in federal and state institutions retain certain religious exercise rights under the Constitution and statutes including the Religious Land Use and Institutionalized Persons Act RLUIPA the Religious Freedom Restoration Act RFRA and the Civil rights of Institutionalized Persons Act CRIPA Many states have similar provisions in their state constitutions and in state law modeled on RFRA These rights must be balanced with the legitimate concerns of prisons officials including cost staffing and most importantly prison safety and security Reconciling these rights and concerns can be a significant challenge for penal institutions as well as courts

Globalizing Torture, 2013 Following the terrorist attacks of September 11 2001 the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects The program was designed to place detainee interrogations beyond the reach of law Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture or by the CIA itself in clandestine black sites using torture techniques This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations It details for the first time the number of known victims and lists the foreign governments that participated in these operations It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit More than 10 years after the 2001 attacks this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and secure accountability for the associated human rights abuses

Immigration and Illegal Aliens Cynthia Simmelink Becker, David Allison Becker, 2009-10 *The Postal Bulletin*, 1999 *Plan CEIBAL in Uruguay* José Miguel García, 2011 *Sport, Spectacle, and NASCAR Nation* J. Newman, M. Giardina, 2011-11-08 Sport Spectacle and NASCAR Nation critically interrogates stockcar racing's ascendance into the upper echelon of the North American sporting popular While most contributions to the public discourse gloss over NASCAR's exclusively white racial identity politics its underlying patriarchal gender politics its overtly conservative political commitment its hyper Christian orthodoxy and its omnipresent commercialism this book connects the dots and critically analyzes the problematic nature of this non natural strategically orchestrated sporting spectacle

Left Out of the Bargain Jacinta Anyango Oduor, Stolen Asset Recovery Initiative, 2014 It is a conservative estimate that every year through corruption between 20 billion dollars and 40 billion dollars are diverted from developing countries and find safe haven in foreign jurisdictions In several countries that are party to the Organization for Economic Co operation and Development OECD anti bribery convention a very high proportion of cases of foreign bribery and related offenses have been resolved short of a full trial Anticorruption practitioners and policy

makers in countries where officials were allegedly bribed have along with other interested stakeholders therefore raised concerns about whether settlements might impede their own criminal or enforcement investigations and affect the liability of multinational companies in third countries This study seeks to fill knowledge gap by i informing policy makers and practitioners about the frameworks for settlements in various legal systems ii examining settlements in practice and their implications for international cooperation and iii analyzing how settlements relate to asset recovery in foreign bribery cases An additional goal is to inform the general public including civil society organizations about these frameworks This study describes and analyzes both qualitatively and quantitatively settlements in cases of foreign bribery and related offenses and their implications for international cooperation and asset recovery This report is structured as follows chapter one adopts a broad definition of settlements as various procedures short of trials and analyzes the legal frameworks in a number of civil and common law countries Chapter two traces the general trends and developments in settlements and considers the rationale for settlements Chapter three analyzes the impact of settlements in one jurisdiction on pending and future investigations in other countries Chapter four explores the link between asset recovery and settlements through the lens of United Nations Convention against Corruption UNCAC Chapter five offers conclusions Chapter six presents detailed summaries of 14 significant cases Stolen Asset Recovery ,2009 This book is a first of its kind practice based guide of 36 key concepts legal operational and practical that countries can use to develop non conviction based NCB forfeiture legislation that will be effective in combating the development problem of corruption and recovering stolen assets

America on the Edge H. Giroux,2006-03-31 Henry Giroux s latest work is a compelling collection of new and classic essays Key topics such as education and democracy terrorism and security and media and youth culture are critiqued in Giroux s signature style This is a fascinating collection for Giroux fans and educators alike *Asset Recovery Handbook* Jean-Pierre Brun,Anastasia Sotiropoulou,Larissa Gray,Clive Scott,2021-02-08 Developing countries lose billions each year through bribery misappropriation of funds and other corrupt practices Much of the proceeds of this corruption find safe haven in the world s financial centers These criminal flows are a drain on social services and economic development programs contributing to the impoverishment of the world s poorest countries Many developing countries have already sought to recover stolen assets A number of successful high profile cases with creative international cooperation has demonstrated that asset recovery is possible However it is highly complex involving coordination and collaboration with domestic agencies and ministries in multiple jurisdictions as well as the capacity to trace and secure assets and pursue various legal options whether criminal confiscation non conviction based confiscation civil actions or other alternatives This process can be overwhelming for even the most experienced practitioners It is exceptionally difficult for those working in the context of failed states widespread corruption or limited resources With this in mind the Stolen Asset Recovery StAR Initiative has developed and updated this Asset Recovery Handbook A Guide for Practitioners to assist those grappling with

the strategic organizational investigative and legal challenges of recovering stolen assets A practitioner led project the Handbook provides common approaches to recovering stolen assets located in foreign jurisdictions identifies the challenges that practitioners are likely to encounter and introduces good practices It includes examples of tools that can be used by practitioners such as sample intelligence reports applications for court orders and mutual legal assistance requests StAR the Stolen Asset Recovery Initiative is a partnership between the World Bank Group and the United Nations Office on Drugs and Crime that supports international efforts to end safe havens for corrupt funds StAR works with developing countries and financial centers to prevent the laundering of the proceeds of corruption and to facilitate more systematic and timely return of stolen assets

University in Chains Henry A. Giroux, 2015-10-23 President Eisenhower originally included academic in the draft of his landmark oft quoted speech on the military industrial complex Giroux tells why Eisenhower saw the academy as part of the famous complex and how his warning was vitally prescient for 21st century America Giroux details the sweeping post 9 11 assault being waged on the academy by militarization corporatization and right wing fundamentalists who increasingly view critical thought itself as a threat to the dominant political order Giroux argues that the university has become a handmaiden of the Pentagon and corporate interests it has lost its claim to independence and critical learning and has compromised its role as a democratic public sphere And yet in spite of its present embattled status and the inroads made by corporate power the defense industries and the right wing extremists Giroux defends the university as one of the few public spaces left capable of raising important questions and educating students to be critical and engaged agents He concludes by making a strong case for reclaiming it as a democratic public sphere

Barriers to Asset Recovery, 2011-06-20 It is estimated that the proceeds of crime corruption and tax evasion represent between 1 trillion and 1.6 trillion per year with half coming from developing countries Proceeds are typically transferred abroad and hidden in foreign jurisdictions thus requiring international cooperation Various international conventions and agreements require international cooperation on this issue in particular the United Nations Convention against Corruption however only 5 billion in stolen assets have been repatriated over the last 15 years This enormous gap reveals that significant barriers continue to impede asset recovery despite the commitments taken by governments civil society and the private sector Drawing on the experience of practitioners with hands on experience the Stolen Asset Recovery StAR Initiative launched this study to identify the barriers to stolen asset recovery internationally provide brief analysis of the impact of these barriers and propose recommendations for overcoming these obstacles This volume is intended to guide policy makers in their efforts to ensure necessary resources and the development of a plan policy or strategy aimed at eradicating the barriers to asset recovery In addition this study proposes actions to be taken by the G20 international organizations financial institutions developmental agencies and civil society

anticorruption efforts Many established systems may also face the need to revise the legal framework institutional arrangements or enforcement mechanisms once it becomes apparent that original assumptions do not deliver expected results or unanticipated challenges emerge There is no single optimal approach to IAD system design and implementation Context is essential These volumes do not therefore attempt to lay out a standard approach for IAD administration Rather they identify the objectives features and mechanisms that can contribute to the effectiveness of an IAD system and enhance its impact as a prevention and enforcement tool
